Durham Homes Hosts Strawberry Brunch

Durham Homes hosted a Strawberry Brunch on Sunday, June 22nd, and dozens of homeowners, potential purchasers and members of the community came out to enjoy the beautiful day and delicious treats. In celebration of Ontario Strawberry Fest month, Durham Homes was serving fresh waffles with strawberries and cream, scones with strawberry preserves, chocolate dipped strawberries and strawberry tarts and cupcakes. Families enjoyed entertainment from a magician and an airbrush tattoo artist.

Throughout the day, homeowners were raving about their experience with Durham Homes.

"All around, it has been a fantastic experience," said Carrie Worwood, a resident of Kingsway Forest. "We were so impressed with the quality of the house. What other builders counted as an upgrade was standard in our house!"

Durham Homes has just released a limited number of new 40' and 45' lots on Kettering Avenue, just west of Townline Road. The new lots are the newest addition to the ever-evolving community of Kingsway Forest. As the neighbourhood grows, Durham Homes continues to create new streetscapes and home designs, and incorporates the newest energy efficient technology as it becomes available. It's obvious that this builder cares about a lot more than selling homes. Their main concern is for the future: of our environment and of the families living in their homes.

Built with energy efficient technology, not only will these homes save the environment from tonnes of emissions, homeowners will notice a huge difference on their energy bills. It's not a mistake! Living in an Energy Star® home not only helps the environment stay green, it keeps a lot more green in your wallet.

There's only one place you can find an energy efficient, quality built home in a great location, and it's right here!

There are 11 different designs to choose from, including bungalow and two-storey models. To experience living in this community, visit one of the designer decorated model homes. The Hampstead and the Sandringham showcase the stunning designs and craftsmanship that go into every Kingsway Forest home.

The Sandringham (Elevation B) is a 2,474 square foot, four bedroom home. This stunning design includes a two-car garage, a parlour, a main floor laundry/mud room, and a spacious front porch. The gourmet kitchen includes a walk-in pantry (which can be upgraded to a wine cellar), a breakfast bar and a large,

bright breakfast area. The family room has a vaulted ceiling and a gas fireplace. The master bedroom features a large private ensuite with his and hers basins, a soaking tub and separate shower and a walk-in closet. The second bedroom includes terrace doors leading to the deck. This model is currently for sale!

With three collections, the Kettering, Margate and Winchester, available on 30', 40' and 45' lots, Durham Homes offers innovative bungalow and two-storey designs to select from, all Energy Star!

There are currently homes under construction, some with 60 day closings available. It was worth the wait for the inventory home sale currently on at Kingsway Forest. On select homes, there is still time to pick your colours! Now is the perfect time to make the smart move to a Durham Homes' Energy Star home.

With walking trails and bicycle paths winding through the neighbourhood, Kingsway Forest is a great place to raise a family. Pristine parks and playgrounds throughout the community give families room to play and grow. The Energy Star package will save residents money on energy costs, and they will have more to spend on the important things: their families.

The Kingsway Forest sales office is located in the Hampstead model home at 591 Oxbow Crescent (Townline Rd. north of Adelaide to Kettering, west on Kettering to Aldershot then follow signs to model homes). The sales office is open Monday to Friday 1:00 p.m. to 7:00 p.m., Weekends & Holidays 11:00 a.m. to 5:00 p.m.

For more information on how to become an Energy Star homeowner, please call (905) 576-6771 or visit the website at www.KingswayForest.ca.
